

Exhibit 1 Vendor Questions Template
 City of Memphis – MPD Storage Area Network Republish RFP # SAIC CoM 2017 MC R212544 RFP Questions

	<u>RFP Section</u>	QUESTION	Response
1.		Will the City of Memphis consider an IBM Software Solution to replace the Data Domain?	YES
2.		What are the specific locations that need storage capacity?	RTCC 600 Jefferson Suite 400, Memphis TN
3.		How much capacity is needed per specific location?	168 TB
4.		Is a replicaton required?	No
5.		Is the City of Memphis planning on using CVLT Deduplication OR another duplication appliance (i.e. like data domain)?	Yes and if solution can provide enough storage space, then it could replace data domain device
6.		If using CVLT deduplication, which CVLT config will be used i.e. SAN attached disk or NAS attached disk?	SAN – if solution is robust enough to replace SAN and Data Domain
7.		What is the performance expectation for the CVLT target i.e. TB per hour throughput OR Read/Write IOS?	10 GB/second
