

City of Memphis

New Homepage User Guide

In the coming days, you'll notice a bit of a new look to memphistn.gov. Here's a couple of things you should know about it:

Yes, we know that the site still isn't mobile-friendly. That's a larger project that we hope to accomplish down the road. We want a website that meets citizens where they are, and increasingly, that's a smartphone. So while we know where we need to be, we still have some hurdles to cross to get there.

Also, we know that some of the items that you're accustomed to seeing on the front page are no longer there. That doesn't mean they're no longer on the site, though.

This isn't a new website - this is just a freshening of our current platform. We continue to work toward an entirely new website for the City of Memphis. We just wanted to let you know of the coming changes before the launch so that you're not surprised. As always, if you have questions, you can contact webmaster@memphistn.gov
